Hi Lisa and Marcy,
I hope you both had a nice extra long weekend!

I am reaching in regards to [REDACTED] (and including Martha Muth and Sam Davis from TJS).

Last Friday his mom noticed some bruises on his arm, neck and thigh. TJS has looked into it and they cannot determine when or where they came from (neither can mom).

So we are wondering if something may have happened on the bus and are hoping you could take a look at the film/footage and let us know. It sounds like he takes some medication that can cause bruising or make it more likely for him to bruise and we are just trying to figure out what happened....if anything.

Thank you
Lisa

Yes, we will certainly take a look at Friday's ride home and see if we can make any observations. We will also talk to the driver and para.

Sincerely,

Good Afternoon-
We reviewed the video and there is nothing out of the ordinary that occurs during the ride home. We also looked at the day before to make sure nothing happened the day before and again it was a normal ride. If you have any further questions please let me know.
